

Thesis Progress Meeting

J. Raimbault^{1,2}

¹Géographie-Cités (UMR 8504 CNRS)

²LVMT (UMR-T 9403 IFSTTAR)

May 26th 2015

1 Projects Organization (updated projects)

2 Achieved Work

3 Technical Developments

Current Projects

Achieved Work (by projects)

- Technical Tools
 - OpenMole Workflow with NetLogo tasks, running on remote. [1w]
 - NetLogoDoc, tool to automatically generate elaborated documentation from NL code. [0.5w]
- General Bibliography. [0.3w]
- Algorithmic Systematic Review
 - Google Scholar API to check catalog validity and retrieve citing refs. [0.5w]
 - Short Paper for ECTQG. [0.3w]
- Synthetic Data Control : simple macro-model, calibrated through morphological indicators on european density data. [0.5w]
- Governance : theoretical game-theory model, old implementation recoding. [0.5w]
- Scaling Sensitivity : theoretical derivation of phase diagram. [0.3w]
